WINGED BEQUEST

027.6	**FEIL**	**English**	**B/W**	**22 mts.**

Shows that books may influence lives of shitins at home, in hospitals and in institutions, describes the public library extension services in hospitals and in institutions, demonstrates the mechanical reading devices for the handicapped, illustrates use of gifts and memorials.

DISCOVERING THE LIBRARY

027.625	**Coronet**	**English**	**B/W**	**10 mts.**

Bobby visits the children's section of the public library where he finds not only books but storytelling card catalogues, and special book lists. Proper procedure in the library is an integral part of the film.

FREEDOM TO READ

028.5	**COLUMU**	**English**	**B/W**	**19 mts.**

A member of the community group points out the danger of aiding communism by having books in the public library, which helps their cause. The Librarian argues that the books be retained in the library. She culls the words of Jefferson and Voltaire and claims that it is in the democratic tradition that all the points of the view be considered. The issue is then put to the audience to decide.

IN THE MINDS OF MEN

060	**FD**	**Hindi**	**B/W**	**19 mts.**

The UNESCO celebrated its silver jubilee on 4th November, 1971. This film shows that what has been achieved jointly by UNESCO and India in the Educational, Scientific and Cultural fields is useful not only in India but also in other countries.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

UDAYAN JALI

060.49143 FD Hindi B/W 20 mts.

The film is on the first Vishwa Hindi Sammelan held in Nagpur in 1975 in which Hindi knowing people from all parts of the world participated.

TREASURE HOUSES

069 FD Hindi B/W 17 mts.

The film shows the treasures of ancient art and archaeology that are to be found at the National Museum at Rashtrapati Bhavan in New Delhi and at the other museums in Bombay, Calcutta and Madras.

VOICES OF SILENCE

069.954 FD Hindi Colour 20 mts.

The documentary weaves a pattern of time, past and present, with museums of all kinds. Starting from the pre-historic period, the documentary links up the modern age with the ancient and medieval India. It traces the beginning of museum in India, way back in 1754 when Sir William Jones founded the Asiatic Society of Bengal in Calcutta.

SMALL TOWN EDITOR

070.1 UW English B/W 18 mts.

Tells the story of a small town newspaper editor and his place in the community. Contrasts his operation with that of a big city newspaper, emphasises friendly relationships with the town's people, and points out the principles of a free press.

TRANSCENDENCE

111.8 FD Hindi B/W 16 mts.

A film on Auroville. Auroville is an international city on the outskirts of

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

Pondicherry, evolving a new way of life, transcending the past and the present in search of true answers to the inner questions of man.

TRIP

111.8 FD Hindi B/W 6 mts.

This is an experimental film in which the pixilation technique has been used. The film depicts the transistoriness of life.

ICCHAPURAN

136.7 CFS Hindi B/W 68 mts.

The film is based on the short story of Rabindranath with the same title. It is a story of a village school teacher and his mischievous son Sushil.

SHARARAT

136.73 CFS Hindi B/W 22 mts.

The story of two young children and their parents is depicted in this film. One day the parents go out and leave their young children at home. The children make all types of mischief and spoil household articles. The children feel sorry in the end.

JALDEEP

136.762 CFS Hindi B/W 90 mts.

'Jal Deep' (Lighthouse) is symbolic of uprightness, truthfulness and stands against all odds and dangers. This theme has been woven in the story without making it didactic. It is not a usual film story with accentuated melodrama and over-dramatized events.

SEED OF AGGRESSION

155.25 FD Hindi B/W 16 mts.

The film explains how wrong parental attitudes result in problem children

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

and ultimately develop them into maladjusted sick and anti-social adults. It also highlights the role of child guidance clinics in dealing with this malady.

RUNKIR SUBACHANI

155.433 FD Hindi B/W 15 mts.

The film is about a girl named Runki whose great desire is to put herself in the free atmosphere of nature.

CHATUR BALAK

155.8954 CFS Hindi B/W 20 mts.

The story deals with the role of children in National Emergency. It shows how children can serve the country by spotting out gossip mongers, black marketeers, etc. and help the authorities to bring to book such anti-social elements.

AHANKAR

157.3 NVAC Hindi B/W 10 mts.

The film emphasises the fact that no one is all powerful in this world and that God has created a watch for every one however powerful he is.

RAJU AUR GANGA RAM

157.3 CFS Hindi B/W 44 mts.

Raju, a seven-year old boy lives with his family on the out-skirts of Bombay. Raju is a sensitive, tender-hearted boy who loves all creatures of God. One day during the monsoon season, he rescues a stray parrot that had come to seek shelter from the rain in his varandah. Raju and the parrot become great friends. The film shows the adventures of Raju and Ganga Ram, and their separation and re-union.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

LOVE IS THE ANSWER

157.8 FD Hindi B/W 11 mts.

The film presents the problem of mental retardation and the efforts being made towards rehabilitation of the mentally handicapped.

ITS ALL IN KNOWING HOW

158.1 NDC English B/W 14 mts.

Combining a story and animated charts technique, the film points out the relationship of good healthy habits to the enjoyment of life, success in work and play, to personality and appearance. Family relationships in recreation activities are emphasized as an important part of every day living.

HARMONY

158.5 FD Hindi Colour 4 mts.

It is not the individuality of colour or human being that counts. Harmony is strength. Unity of the people is necessary for a stronger nation.

YOU CANNOT PLEASE EVERY BODY

170 CSF Music B/W 8 mts.

The film is based on the famous Indian fable of a father, son and donkey. The puppet film presents the story in a most effective manner with impressive sound effects and music.

GOOD MANNERS

177 FD Hindi B/W 11 mts.

A nation's culture is a measure of its maturity. Culture, however is a living reality and our daily lives reflect it in how we behave towards one another. This documentary emphasises the need for good manners.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

SIBBING RIVALRIES PARENTS

177 Grawley English B/W 11 mts.

Describes the reasons for a certain amount of rivalry among brothers and sisters and varied manifestations of it, and means of holding natural friction is a normal human trait.

ACTS OF COURTESY

177.1 YAF English Colour 11 mts.

Demonstrates the importance of acts of courtesy in every day living at home, at school and in the community. Emphasises that getting alongwith other means thinking of other fellow's feelings, his rights and what he will think of you.

HONOURED GUEST

177.1 FD Hindi B/W 2 mts.

A film on tourist promotion which stresses the need to be courteous to the foreign tourist who visits the country.

KAR BHALA HO BHALA

177.1 NEIF Hindi Colour 9 mts.

This is a cartoon film depicting the story of a lion and a woman. The story has a moral behind it.

RUMOUR (Incomplete film)

177.2 COLUMU English B/W 8 mts.

An animated film, drawn by cartoonist Robert Osborn. Produced with cooperation of the anti-defamation league. Traces the development of ideal

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

rumour into a city-wide riot and poses the question 'What defence against rumours.'

STORY OF BULLOCK, A

179 FD Hindi B/W 10 mts.

This film, woven round a story, is meant to help the work of the Society for Prevention of Cruelty to Animals by enjoining on careless drivers the duty of looking after their silent and sturdy friend--the bullock.

SAVITRI

179.35 CFS Hindi B/W 50 mts.

The film tells the traditional story of Savitri and Satyavan and has been made specially for girls.

INDRAJI AUR BACHE

179.6 CFS Hindi Colour 11 mts.

This film shows Smt. Indira Gandhi with children who have won awards for bravery.

EK THA CHOTTU EK THA MOTTU

179.9 CFS Hindi B/W 64 mts.

A village boy sees a tractor and dreams of it. He migrates to the city and becomes a mechanic in a garrage. He works hard and saves every penny till he collects the amount needed by him for buying the tractor. He finally obtains the tractor and returns to his village.

NANGE PAON

179.9 CFS Hindi B/W 35 mts.

It is the touching story of a little lame girl who understood the suffering of the old bare-footed postman and presented him with a pair of chappals.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

VEER PURUSH

179.6 CFS Hindi B/W 11 mts.

Veer Purush (The Hero) is one of the best loved poems of Gurudev Rabindranath Tagore. He shows the flight of imagination of a young boy who dreams of playing heroic role of saving his mother from a gang of dacoits.

DO IT NOW

179.8 FD Hindi B/W 20 mts.

The film portrays a family of lazy people. It stresses that laziness is a cause and the habit of postponing things mars the personality of an individual.

BOUNDLESS IDEAL

181.49 FD Hindi B/W 19 mts.

The film examines the relevance of Gandhian ideals to Indian youth today. It tries to show the boundlessness of Gandhiji's idealism and how it has relevance even today.

DHANLIGIRI SHANTI STUPA

291.355431 FD Hindi B/W 13 mts.

This film 'Dhanligiri Shanti Stupa' has a blending of the historical past and the exposition of the beautiful location of the Dhanligiri, which is the symbolic of the 'Kalinga War.'

SUNO KATHA SHRI RAM KI

294.5 DTA Hindi B/W 45 mts.

The film states the story of our great epic Ramayana and is based on a

DOWN TO EARTH SERIES : FRIENDLY PLANETS PART I

301.426 FPAI English Colour 11.25 mts.

The film depicts the bounty of earth, the appearance of the first living cell

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

and the emergence of diverse species culminating in man. Thousands of years later, man the hunter becomes man the agriculturist. The founding of stable communities, the growth of trade, science, medicine revolutionise human life. Industrialisation accelerates the push to the cities, with population bloating to proportions that endanger the delicate balance between nature's resources.

DOWN TO EARTH SERIES : RAVAGED ELEMENTS PART II

301.426 FPAI English Colour 11.27 mts

Forest and wood land are gobbled upto satisfy the space and food-needs of an ever-growing population. Erosion, floods, the extinction of animals species is the resultant 'fall out'. Air and water resources, polluted by human and industrial wastes, endanger all forms of life. Ultimately man's sanity itself is challenged as he finds himself cut off from space, fresh air, greenery, no better than a captive bird in a cage.

DOWN TO EARTH SERIES : OVER CROWDED SPHERE PART III

301.426 FPAI English Colour 10.15 mts.

Portrays the plight of the descendants of the couples who originally settled on a lush and fertile island called Graph. Doubling every thirty years, the population in 200 years ruthlessly denudes the island of its resources which added misery for all. Will earth double its population in the same way to the way of Graph ?

DOWN TO EARTH SERIES : FOURTH REVOLUTION

301.426 FPAI English Colour 10 mts.

The animated cartoon technique effectively depicts the industrial revolution followed by the agricultural revolution and the revolution in medicine and public health. The promise of progress and plenty consequent to these remarkable achievements, threatens today to reverse itself, unless man can evolve a fourth revolution-control, The Revolution of Population.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

SEARCH

507 FD Hindi B/W 11 mts.

The film deals with the problems and aspirations of young scientists. By means of interviews, various view-points have been presented.

VIGYAN KI PADHAI NO. 1

507 CET Hindi B/W 17 mts.

The first film of the series introduces the new pedagogical approach to teaching science. A teacher is shown trying out new ideas within the usual framework of limitations of a rural school. A highlight of the film is the pupils' involvement in a lesson on 'Force'.

VIGYAN KI PADHAI No. 2

507 CET Hindi B/W 17 mts.

The objective of this film is to make teachers aware that it is not absolutely necessary to have expensive scientific equipment to teach science. Outside the laboratory, everyday life provides enough scope. How 'Air Pressure' can be taught in a simple manner, is shown.

VIGYAN KI PADHAI No. 4

507 CET English B/W 23 mts.

The objective in this film is to instil among the teachers the idea that 'the scientific method' is the proper method to teach science. A teacher is shown using the scientific method of observation, forming a hypothesis and thus arriving at the correct conclusion.

VIGYAN KI PADHAI No. 5

507 CET Hindi B/W 23 mts.

The fifth film of the series demonstrates to the primary school teacher as to

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

how a difficult topic like 'Buoyancy' can be taught to the children using simple things available in rural areas.

VIGYAN KI PADHAI No. 6

507 CET Hindi B/W 20 mts.

An important basic concept in science is 'Classification'. This film illustrates how classification is important in science as in life. A highlight of the film is the illustration of how to teach the concept of the living and the non-living, which children find difficult to understand.

VIGYAN KI PADHAI NO. 7

507 CET English B/W 17 mts.

'Mental Models' are required to be used when abstract concepts like expansion of gases are to be taught. The film explains what a mental model means. How the concept 'Transmission of Heat by conduction, convection and radiation' can be explained through a mental model, is also shown.

VIGYAN KI PADHAI No. 8 (Revised)

507 CET Hindi B/W 26 mts.

The objective of this film is to make the teachers aware of the effects and causes of malnutrition and how ill-health, physical disability and even deformity result. The teacher-presenter in the film explains the scientific approach to food, cooking and eating habits that can prevent malnutrition.

VIGYAN KI PADHAI No. 9

507 CET English B/W 21 mts.

This, the ninth film of the series, demonstrates how a village school teacher can involve the primary school children in the teaching/learning situation and vary his techniques to stimulate the interest of the children. The film deals with the lesson 'Plants and their uses.'

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

VIGYAN KI PADHAI No. 10

507 CET Hindi B/W 18 mts.

The topic dealt within this film is the 'Unit of Measurement and the Standard Unit'. The film starts with a play situation in which the school children are seen quarrelling over the size of the 'guli danda' playground. The teacher points out that the fault is due to the different measurements of the 'dandas' used by the children. Then the need for standard units of measurement is emphasised.

VIGYAN KI PADHAI No. 11

507 CET Hindi B/W 20 mts.

The objective of this film is to show that everyday science can be taught by using simple and low-cost material and that children learn better by direct experience and by doing things themselves. What is considered as waste material can be advantageously used for teaching concepts of science.

VIGYAN KI PADHAI No. 12

507 CET Hindi B/W 22 mts.

This film familiarises the teacher with the new approach to teaching nutrition, introduced by the NCERT, with emphasis on regional and locally available food. The teachers are enabled to understand the nutritional value of various types of food and alternate cheap sources of food easily available in rural areas.

I DO AND I UNDERSTAND

510.7 NUFFIELD English B/W 14 mts.

A mathematics laboratory in use in a primary school in Northern England. The equipment introduces the children to mathematical concepts and maintains their interest more than the use of blackboard instructions alone.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

CIRCLE, THE

513 FD English Colour 11 mts.

This film on 'The Circle' is meant for the students of the High School between 8th and 11th class students. It explains the basic principles of the circle and thus creates a desire in students to learn more of this subject.

PYTHAGORAS THEOREM PART I

513 Gateway English B/W 6 mts.

This film shows with animated drawings how the Pythagorean theorem may be applied to acute angle triangles in addition to right triangles and how this leads to consine formula.

THE SOLAR SYSTEM

523.2 Coronet English B/W 10 mts.

For studies of the Solar system a visit is made to Lowell Observatory where we can see the 24 inch refractor telescope used by Dr. Percival Lowell, Dr. Victor Slipher and Dr. Eral Slipher in their extended studies of Mars and other Planets.

HOW WE KNOW THE EARTH MOVES

525 CALIFILM English B/W 11 mts.

We have been told that the earth spins on its axis and that it travels around the sun. How do we know these statements are true. This film demonstrates and explains the Foucult Pendulum by which the earth's rotation was first proved. The audience participates in an experiment that illustrates the star-shift method astronomers use to determine the earth's solar orbit.

HOW WE KNOW THE EARTH SHAPES

525 FD English B/W 20 mts.

How do we know what the earth's shape really is ? The film shows how,

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

during the centuries, man has changed his ideas about what the earth looks like : from flat to curved, to round, to flattened and bulging, to pear-shaped. Yet a perfectly round globe is still the best model of the shape of the earth.

'Y' FOR YEAR

525.3 TFP English B/W 6 mts.

What makes a year and how it is calculated is depicted through the line drawings. The changing seasons, days and months, that go to form a year are shown in this film.

'T'-FOR TIME

529.7 TFP English B/W 6 mts.

The subject of Time, as studied by the junior school children is explained with the help of line drawings.

NATIONAL PHYSICAL LABORATORY IN SERVICE OF NATION

530 FD Hindi B/W 15 mts.

This is a film on National Physical Laboratory opened by late Deputy Prime Minister, Sardar Patel in January 1950, in Delhi and devoted to research in applied and fundamental physics. This film has interesting sequences dealing with the use of solar energy and electro microscopes, the manufacture of carbon products and prospecting and testing of radio active minerals.

PHYSICS SCIENCE KIT PART I

530 DTA English B/W 19 mts.

There is a wide variety of items and many of them are of new designs. This shows how to assemble them properly for performing various experiments which can be demonstrated in the class related to scientific concepts such as weight, force, measurement of an area and volume, Archimedes' principles, molecular forces etc.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

PHYSICS SCIENCE KIT PART II

530 DTA English B/W 18 mts.

It demonstrates how to take out various materials from the kit for conducting the experiments. Efforts have been made in the film to show the effectiveness of some of the experiments, which can be conducted with kit materials, which otherwise are possible only in a sophisticated laboratory. Some of the experiments shown here include comparison of initial mass of two bodies, measurement of time, initial effect of speed and mass upon kinetic energy, sliding and rolling friction, building of water under reduced pressure and medium for the propagation of sound.

PHYSICS SCIENCE KIT PART III

530 DTA English B/W 20 mts.

The kit is meant for the final year of middle classes. It emphasises the activity oriented approach to help the students in learning the principles of physics more effectively. The film shows the various items provided in the kit are for conducting the experiments on light, heat, electricity, reflection, and refraction of light, conduction, induction, and magnetic field etc. All the experiments connected with light are shown through a low cost indigenously designed light box in place of sophisticated equipments. The emphasis has been made in the film to explain both the new methodology of teaching Physics by using low cost and locally available material as well as to design and make simple items of equipment.

PRARAMBHIK BHAUTIKEE SHIKSHAN

530 DTA Hindi B/W 20 mts.

It is a teacher training film dealing with the teaching of elementary physics in the school. It stresses the activity oriented approach as applied to the teaching of science at the elementary stage. The film shows some teachers attending the orientation course and participating in the demonstrations.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

SPACE AND INDIA

530.1072 **FD** **Hindi** **Colour** **21 mts.**

The film starts with the speech of late Dr. Sarabhai and shows the various activities carried on in the field of space research in India. It highlights the use of space research in the fields of communication and agriculture.

MYSTERY OF TIME

530.11 **Moody** **English** **Colour** **39.49 mts.**

A glance through the barred windows of our earth bound existence into the world of space. Portrays how some of the elemental concepts of relativity and other mathematical formulas would effect man if he were to live in space.

PHYSICS FOR ALL

530.7 **CBH** **English** **B/W** **27 mts.**

The modern approach to laboratory training for physics students in schools. Great emphasis is placed on the necessity to inspire curiosity in students for experimental techniques and some class demonstrations.

TEACHING ELEMENTARY PHYSICS

530.7 **DTA** **English** **B/W** **20 mts.**

It is a teacher training film dealing with teaching of elementary Physics in schools. It stresses the activity oriented teaching as applied to the teaching of physics in the three sequences; dealing with the teachers attending an orientation course and presents in details, the demonstrations that need to be done by them. Participation and organising demonstration experiments, pupil experiments and out of class activities including field trips, laying emphasis on the 'Use of Environment' by involving students for data collection, its recording and interpretation and other pupil activities are also shown.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

TRAINING OF MEN

530.715 UWF English B/W 11 mts.

Story of the extension, workers' training programme in Etawah District. Training of men follows the principle of learning by doing actual field work in the villages.

KINETIC ENERGY INTRODUCTORY EXPERIMENTS

531.1 Esso English B/W 16.30 mts.

Mr. K.M. Grayson Malvern College demonstrates a number of experiments in the film as to how various kinds of energy transfer occur. In the first group, the Malvern Energy Conversion Kit is used extensively. The second group consists of other transfer experiments either for pupils to do themselves or to be used as basis for discussion. Finally, quantitative experiments on kinetic using dynamics trolleys and the linear air track are discussed.

FRAMES OF REFERENCE

531.23 SSC English B/W 25 mts.

Demonstrates through a variety of experiments the distinction between an inertial and non-inertial frame of reference, and the appearance of fictional forces in a non-inertial frame. Explains that fictional forces are required in accelerated frames to prevent laws of physics from changing.

MOMENTUM AND COLLISION PROCESSES

531.23 Esso English B/W 17 mts.

In this film, simple ideas of action and reaction are revised using playground trolleys, trucks fitted with magnets, and a flywheel-driven cat. Elastic and inelastic collisions are then investigated between small trolleys, whose speeds are found with a ticker-taps timer. The product mass velocity is calculated before and after each collision. To obtain more accurate results, the vehicles on a linear air track are photographed stroboscopically. Collisions in two

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

dimensions are studied with ring magnets which float on carbon dioxide gas, so that they move freely before and after colliding elastically.

WAVE MOTION INTERFERENCE

531.33 **Gateway** **English** **B/W** **6.30 mts.**

Interference phenomena shown with the aid of ripple tank.

ON FLOW IN THREE DIMENSIONAL CENTRIFUGAL IMPELLER

531.35 **CALIFIT** **Silent** **B/W** **12.4 mts.**

Shows flow visualization with beads; relative law observed by rotating prism (rotascope 7—bladed impeller).

EXPERIMENT IN FORCE AND MOTION

531.4 **Esso** **English** **B/W** **16 mts.**

This film covers how the traditional topic of dynamics can be introduced in a qualitative way and earlier in the school course. Experiments with trolleys and ticker-tap vibrators are used to familiarise the pupils with velocity and acceleration. Arbitrary force units are provided by stretched elastic bands and the concepts of inertia and force developed. In addition modern techniques help to demonstrate the fundamental principles of Galileo and Newton.

UNIVERSAL GRAVITATION

531.5 **CSE** **English** **B/W** **30 mts.**

Universal Gravitation produced by Physical Science Study Committee of U.S.A. The programme is based on Newton laws of motion force of gravity. Explanation of the gravitational force. It is a universal phenomenon. Inertial frame of reference is described. Gravitational field strength in space of our earth. With the help of satellites the gravitational pull of the earth is studied.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

Property of the force extended by the earth on the satellite is described as

$$GF=G\left(\frac{N^1 M^2}{R^2}\right)$$

CONSERVATION OF ENERGY

531.643 CSE English B/W 29 mts.

Energy conservation as applied to kinetic and potential energy is explained with experimental demonstration.

ENERGY IN ITS DIFFERENT FORMS

531.68 DTA English B/W 10 mts.

Explains the basic concept of Energy and shows examples of its principle forms, including nuclear energy. Shows how energy is changed from one form to another to do work.

HOW TO USE THE BURETTE

532 ICI English B/W 15 mts.

The film begins by showing a typical burette and its essential features, the graduated scale, the stopcock and the jet.

It describes the proper way to select a burette for use, how to inspect it for defects such as stains, chips and internal greasiness which would make it useless for good work.

The preparation, setting up and filling of the burette and its use in a simple titration are shown in detail, attention being given to the method of working the tap, manipulating the titration flask and reading the level of the liquid. The film ends with shots that show the apparatus being cleaned and put away after use so that it will be ready for the next user.

PHYSICS AND CHEMISTRY OF WATER

532.1 Unilever English Colour 20 mts.

Water is one of the most extraordinary substances known. Life on earth

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

depends upon some of its unusual properties—its slow rate of evaporation, its high surface tension, its power of solution, and the fact that it is heavier in the liquid than the solid form. The water molecule is positively charged and the other end is negatively charged. The positive end of one water molecule can be attracted and attached to the negative end of another, forming a hydrogen bond. These bonds are continually being made and broken at room temperature, resulting in fluidity. Hydrogen bonds account for most of water's unusual properties.

PROPERTIES OF MATTER—PART 5—SURFACE

532.1 Anvil English Colour 17.40 mts.

After defining surface Sir Lawrence describes the surface properties of a liquid. A series of experiments show what is meant by surface tension and vividly demonstrates how it may be controlled and modified. Sir Lawrence next describes the basic laws of friction.

GAS SYRINGES

533.1 Esso English Colour 22 mts.

The care and cleaning of syringes is discussed first. The experiments cover the following topics; finding the percentage of oxygen in the air, measuring the rate of evolution of gas, finding the formula of ammonia, hydrogen chloride and determining the molecular weight of a volatile liquid.

APPROACH TO KINETIC THEORY, AN

533.7 Esso English B/W 18 mts.

It studies the growth of crystal which conforms the structure of matter and explains the Brownian Motion theory of gas particles.

WAVES AND VIBRATIONS

534.1 EFVA English Colour 22.30 mts.

The essential difference between waves and vibrations is demonstrated. The

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

relationship between wave velocity, wavelength and frequency is next described and illustrated in a series of experiments by Melde's experiment; by jets from a gas tube under pressure; by resonance, using matched rods and a model incorporating tremblers and an oscillating disc. Sir Lawrence finally considers vibrations, demonstrating the transference of Energy both experimentally and with the aid of models.

VIBRATIONS

534.14 EFVA English Colour 19 mts.

The film describes a simple vibration, following a reconstruction of Galileo's original observation. Sir Lawrence begins and ends the film by stressing interrelationships of vibrations and waves.

PROPERTIES OF WAVES

534.3 EFVA English Colour 22 mts.

The film describes the reflection of waves and their compression and expansion is then illustrated experimentally. The Doppler effect is described and illustrated by ASDIC recording. Finally, the film demonstrates the effect when a body is travelling through a medicine faster than waves travel in that medicine.

FRANK HERTZ EXPERIMENT

535 SSC English B/W 24 mts.

Collision of light rays with mercury produces ultraviolet spectrum and visible spectrum of light. Light behaves as photons. Mercury atoms can take discrete energy states. Electrons deliver in package certain size of energy to mercury atoms. Mercury atoms absorb certain amount of energy from electrons. In elastic collision between electrons and mercury atoms do not take out much energy from the moving electrons. Elastic collision delivers all energy to the mercury atom from the electrons. The above phenomenon is described in the film with the help of a special electron tube made for demonstration.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

PICK A LETTER SERIES—'A' FOR AIR

535 Lawrence Engiish B/W 4 mts.

With the help of line drawings, the film depicts all about air and its uses.

PRESSURE OF LIGHT

535 CSE English B/W 21 mts.

Using Sir William Crook's principle of the radiometer, several experiments are carried out to demonstrate that light does exert a pressure and that its behaviour is similar to a stream of bullets. As the experiments are done, the theories and apparatus involved are discussed and explained.

USE OF CENTIMETRE WAVES IN TEACHING OPTICS, THE

535.13 Esso English B/W 18 mts.

The wavelength of light is such that it is not normally very easy to demonstrate certain optical phenomena before the whole class. The use of centimetre waves, however, does enable conventional experiments in reflection, refraction, interference, deffraction and polarization to be clearly shown before a class, and this film suggests a series of demonstrations which should help towards the pupils' understanding of these phenomena.

WAVES AND THE RIPPLE TANK

535.13 Esso English B/W 16.30 mts.

The general study of waves was traditionally a topic taken up in the sixth form. The treatment tended to be mainly mathematical, and the study of waves themselves less important than their use in 'Explaining' phenomena in light and sound. It illustrates how the concept of waves and their study may be introduced at an earlier stage by using waves on ropes, on slinkies, and on the surface of water in a trough. This is followed by an extensive series of pupil investigations of water waves in the ripple tank. Propagation of waves, reflection from straight and curved barriers, variation of wavelength with

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

frequency, the use of the hand stroboscope, change of wave speed with depth, refraction and interference are all included, together with some practical information on the manipulation of the ripple tank and its accessories.

WAVE MOTION DEFRACTION

535.13 Gateway English B/W 8 mts.

Interference phenomenal is shown with the aid of ripple tank.

YOUNG AND THE WAVE THEORY OF LIGHT

535.13 FD English Colour 21 mts.

The film outlines the two contesting theories of light, the particles theory and the wave theory which were held in the eighteenth century.

REFLECTION, REFRACTION AND POLARIZATION OF LIGHT

535.32 EFVA English Colour 19 mts.

Sir Lawrence begins by demonstrating some of the familiar effects of reflection and refraction by means of a beam of light passing through water, a prism and lenses. This is followed by a description of total internal reflection. Then he turns to polorization and polarized light.

OPTICAL MASER

535.33 Science Films English Colour 5 mts.

The principles of the optical maser, an instrument in which a bright flash of white is absorbed and re-emitted as an intense and narrow beam of monochromatic light of a longer wavelength. The technical structure of the absorbing material for two systems; a synthetic ruby maser and a glass containing neodymium.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

REFRACTION AND SCATTERING OF LIGHT

535.5 EFVA English Colour 17.30 mts.

An explanation of double refraction is followed by Sir Lawrence demonstrating its effects by means of polaroid, a crystal of calixis and a lamp incorporating an iris diaphragm. The effects that are associated with the scattering of light are described, each description being supplemented by a vivid demonstration. Sir Lawrence ends with a series of experiments in refraction effects using two pieces of polaroid.

'F' FOR FIRE

536 TFP English B/W 6 mts.

The film aims at educating young children through line drawings all about fire, its uses and abuses.

NATURE OF HEAT

536 Coronet English B/W 11 mts.

Heat as the energy of molecular action is demonstrated in this film through experiment and animation. The film motivates discussion and experimentation.

CONVECTION TRANSFERENCE OF HEAT PART I

536.25 Gas Council English Colour 11 mts.

Transfer of heat by convection through liquids and gases is demonstrated.

CONDUCTION TRANSFERENCE OF HEAT PART II

536.25 Gas Council English Colour 12 mts.

Transfer of heat by conduction through solids is demonstrated.

RADIATION TRANSFERENCE OF HEAT PART III

536.25 Gas Council English Colour 17 mts.

Transfer of heat by radiation is demonstrated. Kirchhoff's radiation laws and Prevot's law of heat exchange are discussed.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

ELEMENTARY EXPERIMENTS IN HEAT RADIATION

536 3 Esso English Colour 11 mts.

The investigation of heat transfer through such every day materials as glass and paper and the difference in radiation and absorption by black and polished surfaces. A simple demonstration of the reflection and focusing of heat radiation.

HEAT CAUSES EXPANSION

536.4 Gateway English Colour 12.30 mts.

Simple experiments using objects found in the home carried out by two children to show clearly that solids, liquids, and gases expand when heated and contract on cooling. Examples of the allowances that architects and engineers must provide for expansion when designing buildings, bridges, railway lines, etc., which will be subject to changes in temperature. The working of the thermostat in an elecrictiron, the use made of the expansion properties of mercury in a thermometer.

A.C. AND D.C.

537 EFVA English B/W 10 mts.

An outline of the difference between alternating and direct current. Animated diagrams are used to explain the two currents.

PICK A LETTER SERIES—'E' FOR ELECTRICITY

537 TFP English B/W 6 mts.

Illustrates through diagrams what Electricity is; where it comes from and what it does for us. Shows how the discoveries have contributed to our modern world.

ELECTRO MAGNETIC WAVES PART I

537.12 EFVA English Colour 20 mts.

The discovery of the electro magnetic spectrum is outlined. Both wave and

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

photo concepts are introduced. It concludes with a cross-section of the modern uses of electro magnetic radiation.

ELECTRO MAGNETIC WAVES PART II

537.12 EFVA English Colour 28 mts.

The determination of the velocity, refraction, dispersion, defraction, interference, polorisation and absorption of electro magnetic radiation is demonstrated.

ELECTRO MAGNETIC WAVES

537.12 EFVA English Colour 20 mts.

The nature of electro-magnetic waves is demonstrated first with the aid of models and thereby a reconstruction of Faraday's experiment on induction.

BASIC ELECTRICITY ELECTROSTATIC PART I

537.21 Rank English Colour 9 mts.

This film deals with electrostatics and capacitance as a small part of the immense subject of electricity. The Gold leaf Electroscope, Electrophorous and the Wimshurst and Van de Graaff Machines are shown, and related to natural phenomena. The film may be used to create an interest in the subject to underline the basic laws and principles, and also to introduce simple atomic theory to older students.

ELETROSTATICS, A MODERN APPROACH

537.23 Esso English B/W 14 mts.

The identity of static with current electricity, the conservation of electric charge in frictional and induction experiments; methods for the display of electric fields and some work on capacitance and capacitors are all included. Many of these experiments have a reputation for difficulty, but the film makes clear the techniques which will ensure.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

ELEMENTARY CHARGES AND TRANSFER OF KINETIC ENERGY

537.5 CSE English B/W 33 mts.

An experimental check shows that electrons do acquire the predicted energy when they move in a vacuum tube for a known distance in a known electric force field. The electrons striking a metal plate cause its temperature to rise. This same temperature rise is produced in an identical plate by using a mechanical source of energy. The predicted electrical energy and the observed mechanical energy are closely the same.

X-RAY DEFRACTION

537.535 EFVA English Colour 23 mts.

The principle of defraction by multiple layers is first explained with the aid of animated diagrams and models. It further describes how X-Rays are needed to analyse the atomic structure of bodies.

EXPERIMENT IN RAY OPTICS

537.5352 Esso English B/W 14 mts.

The most important application of ray optics is the study of lenses and optical instruments. Mr. G. W. Dorling, Physics lecturer, Wortester College of Education, demonstrates an alternative approach to the study of the behaviour of lenses from that based on the fundamental laws of refraction. The film ends with a demonstration of model eye, using a five-litre flask. and thus further emphasises what may be achieved by using carefully chosen lenses.

PHOTO CONDUCTIVE EFFECT

537.54 EFVA English B/W 15 mts.

This film shows that the photo cell is the most rapid and effective method of detecting and measuring infra-red radiation. The composition and the working of a photo conductive cell is demonstrated.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

AN APPROACH TO ELECTRON

537.56 Esso English Colour 13 mts.

The film shows how the thermonic emission can be introduced in elementary courses which lead to cathod rays and elucidate the study of atomic structure. It also discusses the testing of a hypothesis, use of its prediction and experiment in deciding between two rivals.

BRATTAIN ON SEMICONDUCTOR PHYSICS

537.622 Bell Tele English B/W 29 24 mts.

Shows physics of semi-conductors including properties, sample models, history, impact and new phenomena.

ELECTRO-MAGNET

538 EFVA English B/W 13.30 mts.

Dealing with the principles and applications of the electro-magnet, this film shows the production of magnetic fields by simple experiments. The effect of introducing iron cores is demonstrated and the retention of magnetism by a steel core is emphasised.

MAGNETISM PART I

538 EFVA English Colour 15 mts.

It begins with a brief survey of the history of magnetism and illustrates some of its familiar effects. A description of the fundamental properties of magnetic materials is followed by demonstrations with the Lode Stone, a modern magnet and a magnetic compass.

MAGNETISM PART II

538 EFVA English Colour 16 mts.

The concept of the magnetic field is further developed by the discovery of

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

the early 19th century, the relationship between magnetism and electricity. It describes the magnetic properties of iron and its behaviour when subjected to the influence of a magnetic field.

ELECTRO-MAGNETIC KIT

538.3 Esso English B/W 12.30 mts.

Demonstrates a kit which has been devised for teaching electromagnetism, inherent in the Nuffield Physics Project is the idea that pupils should, as far as possible, perform experiments themselves. Each complete kit is so designed that with the aid of special low-voltage, high current power packs, thirty-two pupils working in pairs can explore the major electromagnetic phenomena. In the film (which presents a selection from the many experiments possible) Mr. Osborne's demontration starts with the permanent magnet and electro-magnet and proceeds to the ammeter, electric motor and dynamo, all three of which are shown being assembled from virtually identical and very simple components.

FERRO MAGNETIC DOMAINS PARTS I AND II

538.4 Bailey English Colour 22.27 mts.

Part I—Describes ferromagnetic and paramagnetic materials and shows the effect of temperature on magnetic *dipoles* and the effect of an external magnetizing field on the domains. Also shows the motion of domain walls by models and by iron-oxide films.

Part II—Discusses the energy state of magnetism as well as the balance of four energies : Exchange energy, Magnetistatic energy, Wall energy and Magnetocrystalline Anistropy energy.

ATOMS

539 FD English B/W 12.9 mts.

It shows how all matter consists of very very small invisible particles called Atoms. The atoms is animated to show the protons, neutrons and electrons of various elements. The atoms combine to form molecules. Man uses this

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

knowledge to make new materials such as plastic, medicines, electronic devices etc. The nucleus is a storehouse of enormous energy.

GRAM-ATOM, FORMULAE AND EQUATIONS

539 Esso English Colour 17 mts.

This film describes an approach to formulae and equations using the concepts of gram-atom. It opens the idea of the size of atoms followed by suggestions for teaching the concepts of the gram-atoms.

STRUCTURE OF MATTER No. 13

539.1 EFVA English B/W 15 mts.

The Nuffield 'O' level approach to atoms and their arrangement in the solid state is described.

ATOM—MAN'S MOST POWERFUL SERVANT, THE

539.7 FD Hindi B/W 13 mts.

The film shows the nuclear experiment carried some where in the deserts of Rajasthan.

MILLIKAN EXPERIMENT

539.72 SSC English B/W 27 mts.

The simplified Millikan experiment is photographed through the microscope. Standard spheres are substituted for oil drops, X-rays are used, and charge is related to velocity of the sphere across the field of view of the microscope. Emphasizes the evidence that charge comes in natural units that are all alike; numerous changes of charge are shown, with the measurements clearly seen.

PRINCIPLES OF X-RAYS

539.7222 EFVA English B/W 20 mts.

With a historical section, placing the discovery of X-rays in the develop-

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

ment of our knowledge of the specturm, opens this film. The application of the quantum theory is used to show the composition of the white X-Ray spectrum and the film goes on to deal with line spectra.

RADIOACTIVITY

539.75 ICI English Colour 23 mts.

The discovery of radioactivity by Bacquerel, the ionization of alpha, beta, and gamma rays are discussed. The principles of the Wilson cloud chamber are explained and demonstrated.

RADIO CHEMISTRY FOR SCHOOL

539.752 ICI English Colour 25 mts.

Shows the basic principles of Radioactivity and some applications to Chemistry. The uranium series and how one of the short-lived members can be separated and its half life measures, etc.

RUTHER FORD ATOM

539.77 CSE English B/W 38 mts.

A film by Physical Science Study Committee. The film explains about the charged particles in a discharge tube and studies the behaviour of the particles under different conditions.

ITS ALL WATER

540 FD Hindi B/W 14 mts.

A popular science film on chemistry.

MAGNETISM PART 3

540 FD English Colour 18 mts.

Sir Lawrence first describes and contrasts the two classes of magnetic bodies and demonstrates the relationship between magnetic properties and temperature.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

He discusses the earth's magnetism and illustrates Wegner's novel theory of the history of continents.

PRELUDE TO POWER

540 EFVA English B/W 25.30 mts.

This film presents the story of Faraday and the Induction Ring and is intended for non-specialists in the middle forms of secondary schools.

CHEMISTRY OF INVESTIGATION

540.7 EFVA English Colour 22 mts.

Unscripted and unshearsed it shows quite a simple chemistry lesson in progress, but this chemistry is taught by allowing the boys to find out for themselves and not merely by dogmatic assertion.

EXPLORING CHEMISTRY

540.7 Unilever English B/W 33 mts.

This film shows the Nuffield approach to the teaching of chemistry in operation in a comprehensive school. It traces the learning process through early childhood up to school age and illustrates the use of children's natural curiosity and the instinct to explore.

PROPERTIES OF MATTER PART I

541.2 EFVA English Colour 21 mts.

It begins by illustrating the different forms which water can assume showing how these changes in form depend upon changes in temperature.

PROPERTIES OF MATTER PART II

541.2 EFVA English Colour 25 mts.

It describes and illustrates the structure of atoms and molecules. This is followed by a demonstration which conveys some idea not only of the size of

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

the atoms and molecules but also of the progressive development of microscopic instruments and techniques.

PROPERTIES OF MATTER PART III

541.2 EFVA English Colour 17 mts.

Some of the very different properties possessed by metals are first shown. Models are used to illustrate the characteristics of a metal and an experiment with aluminium demonstrates its essential crystalline structure.

PROPERTIES OF MATTER PART IV (Plastic and Rubbers)

541.2 EFVA English Colour 20.30 mts.

Sir Lawrence first compares naturally-and artificially-produced plastics and describes their structure. Demonstrations illustrate how simple molecules, by Chemical reaction, are transformed into macro-molecules, this section of the film concluding with an experiment showing the manufacture of a plastic. The constitution of rubber is next described, its nature being illustrated both experimentally and with the aid of models.

COLLOIDAL STATE

541.345 Rank English B/W 20 mts.

Defines colloids and their several kinds, shows how they differ from solutions and suspensions, how they may be prepared and destroyed, and points out the many uses of colloids in the chemistry of every day life.

FLOW VISUALIZATION TO CONSTRUCTION SYSTEM

541.361 USAID English B/W 9 mts.

Demonstrates techniques and does not give comprehensive pictures for any specific geometries. Discusses use of water flow as analogue for study of flow patterns in combustion systems. Describes flexible Thornton Laboratory

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

System. Discusses lighting, tracer methods and shows typical photographs. Shows controlled speed rotating disc with holes for synchronizing photographs and discusses use of polystyrene beads.

INTRODUCING ELECTRO VALENCY—
'THE TEACHING OF A CONCEPT'

541.37 SCOT FILMS English Colour 20 mts.

This film contains sequences from an actual Chemistry lesson in a Scottish Secondary School, showing the approach to chemical bonding with third and fourth form pupils. It shows many experiments on conduction of electricity in solution and a demonstration of the electrolysis of Molten Cadmium iodide.

INTRODUCTION TO ION EXCHANGE, AN

541.3723 Random English Colour 26 mts.

The theory of Ionization is introduced and defined. It also shows the identifying characteristics of ions and where they occur.

CATALYSIS

541.395 ICI English B/W 17 mts.

Explains several phenomena associated with catalysis, including concentration by absorption, intermediate compounds in a homogenous mixture, chain reactions, breaking of reaction chain, poisoning of catalysis, and negative catalysts or inhibitors. The practical applications used as a basis for explanations are rubber manufacturing and amtiknock gasoline.

CATALYSIS IN THE MANUFACTURE OF SULPHURIC ACID

541.395 ICI English B/W 16 mts.

This film attempts an explanation of catalysis and deals with the use of catalysis in the manufacture of sulphuric acid. Animated diagrams help to

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

compare the large scale industrial manufacture of sulphuric acid with the school laboratory demonstration familiar to chemistry students.

KNOW YOUR CHEMISTRY

542.1 DTA English B/W 22.30 mts.

The kit is introduced as a mini-laboratory to teach chemistry effectively in the absence of a sophisticated laboratory. It shows the various items of the kit like testubes, trough, tripod, air pump, flasks etc. one by one with the help of the kit manual. The assembly of various items is also shown. The working of the improvised items like the distillation assembly are explained in the film for its proper utilisation.

DISTILLATION

542.4 Burma Shell English B/W 12 mts.

This film shows the process of distillation by which crude oil is separated out into different products to suit the needs of industry and transport. The different atomic structures of different ingredients of crude oil are clearly shown by means of moving diagrams.

A laboratory experiment is used to demonstrate how distillation can be used to separate out three substances which have been mixed together. In the same way, the different hydrocarbons which are the ingredients of crude oil, can be separated out according to their different boiling points. The 'bath still' is shown as a simple method of effecting this. Far more efficient is the fractionating column which is the basis of modern oil distillation. Diagrams make clear the method of working of this complex apparatus.

DIFFUSION OF SMOKE AND GAS BY WIND

544.5 NCD Silent B/W 14 mts.

Describes all smoke visualization (qualitative only). Shows eddy structure in some cases and demonstrates effect of thermal instability near the ground.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

HISTORY OF THE DISCOVERY OF OXYGEN

546 ICI English Colour 16 mts.

This is a colour film describing the work carried out by the alchemists and early chemists. It shows how the alchemists tried to transmute base metals into gold and describes the phlogiston theory, which was worked out by Becher and Stahl and accepted for over 150 years. The film then shows how the experiments carried out by the Swedish chemist Scheele and his English contemporary Joseph Priestley led to the discovery of oxygen gas. Finally the work of the French chemist Lavoisier is described, which identified combustion as combination with oxygen from the air.

SMALL SCALE INORGANIC PREPARATION

546 ICI English B/W 15 mts.

Small Scale Inorganic preparation produced by I.C.I. film unit. In this film 5 experimental set ups have been shown for the preparation of Small Scale Inorganic chemical substances.

FLOW VISUALIZATION—WATER CHANNEL HYDROGEN BUBBLE TECHNIQUE

546.122 DOUGLAS Silent B/W 25 mts.

Shows the various techniques which have been used and/or developed at Douglas Aircraft for visualizing low-speed flow.

WATER

546.22 ICI English Colour 20 mts.

This is a film on the properties of water and also tells about the uses of water.

AMMONIA

546.32 ICI English B/W 12.28 mts.

The purpose of the film is to indicate the present-day importance of ammonia and to describe the Haber-Bosch synthesis. It is designed for pupils of 15-16

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

years in secondary schools. Brief shots of the laboratory preparation of the gas and of a solution in water provide a link with school work. The importance of ammonia in relation to refrigeration and to the preparation of nylon, rubber, nitride hardended metals, explosives and fertilizers is stressed by reference to everyday uses of these products.

SODIUM CARBONATE

546.382 ICI English Colour 18.48 mts.

This film describes the Solvay ammonia—Soda process to produce Sodium Carbonate which is an essential raw material required for various industries. The film shows how paper and glass bulbs are produced using the chemical—Sodium Carbonate.

SODIUM HYDROXIDE

546.382 ICI English Colour 18 mts.

The film describes the Lime Soda process to produce Sodium Hydroxide industrially. The chemical has large industrial uses which is also shown in the film.

SMALL SCALE ANALYSIS

546.66 ICI English B/W 23 mts.

Is small scale analysis an improvement on the conventional macro method ? This film is the record of an actual experiment carried out at a Country High School in which two senior boys were asked to analyse samples of zinc carbonate by each of the two methods. The analysis is shown stage by stage, and particular attention is paid to the manipulation of the small scale apparatus as being the less familiar of the two.

The commentary compares the two sets of equipment and the time taken for each stage by each method. It concludes by summing up the advantages and disadvantages of the two methods.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

CHLORINE

546.732 ICI English Colour 14.40 mts.

Portrays general information, laboratory and industrial preparation and the physical and chemical properties of Chlorine.

SMALL SCALE ORGANIC PREPARATION

547 ICI English Colour 21.35 mts.

Small Scale Organic Preparation produced by ICI film unit. This film describes the use of small scale set-up for the preparation of various organic substances like ethyl bromide. The use of cork distillation appratus is shown. Next we see in this film the preparation of acetic acid.

SILICONES

547.48 ICI English Colour 19.12 mts.

Explains what silicones are, how the properties of these compounds in various forms are being applied in home and industry. Silicones are illustrated from basic chemical formulas to the study of their atomic structure.

CRYSTAL: AN INTRODUCTION

548.2 Bell Tele English B/W 22 mts.

An introduction to crystals. Explanation and demonstration of X-ray diffraction in crystals, typical crystal structures, cleavage axes of symmetry and planes of symmetry, macroscopic consequences of crystal structure.

CRYSTAL ALAN HOLDON

548.5 MKR English B/W 23 mts.

Physical Science Study Committee, America for Secondary Schools. It describes various types of Crystals opened in nature. It shows how Crystals are grown. The film tells about the various properties of Crystals.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

CRYSTAL STRUCTURE

548.81 ICI English Colour 12.14 mts.

How the shape of a crystal is determined by the shape and arrangement of its unit cells. Determination of the shape of the unit cell, measurement of its size and the atom's position in it.

'U' FOR UNDERGROUND

551 TFP English B/W 6 mts.

What is happening underground is brought out on the screen through the media of line drawings. It shows underground tunnels and railway traces, and life underground.

WHAT IS INSIDE THE EARTH

551.11 CALIFILM English B/W 13 mts.

The film gives an idea of what is happening inside the earth. It gives same information about coal mines, oil wells, volcanoes and seismograph.

FROM ATOM—THE EARTH

551.14 Nebraska English B/W 29 mts.

Pictures the creation of the universe from the explosion of the 'Atom'. Traces the origin of elements, stars and the solar systems by revealing the nature of the earth's crust and atmosphere and the beginning of life.

OUR BIG ROUND WORLD

551.14 Coronet English B/W 11 mts.

Two air journeys are taken around the world. The first one, going from west to east, shows that the earth is round and that day and night are related to the position of the earth to the sun. The second trip from north to south,

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

visualizes the climate zones and how climate in the zones is affected by their distances from the equator.

EARTHQUAKES

551.22 Almanac English B/W 10 mts.

Explains the earth's structure. Animation shows how and where earthquakes are likely to occur, points out that earthquackes are anticipated and recorded. Shows scenes from some of the disastrous quakes of the past.

WHEN THE EARTH TREMBLES

551.22 FD Hindi B/W 10 mts.

The earthquake is the most terrifying of all natural calamities. With little knowledge of earthquakes, man today has to use his intelligence and minimise the danger to life and property in earthquake-prone regions.

RETURN OF BHAGIRATHI

551.35 FD Hindi B/W 7 mts.

This film shows how erosion along the Ganga and silting are slowly choking the part of Calcutta.

GREAT WINDS PART I

551.37 GBI English B/W 10 mts.

The film deals with the theoretical circulation of the atmosphere in the case of an imaginary globe without allowance for the effects of the distribution of land and sea. Diagrams explain how the great wind belts shift during the year and how these seasonal shifts bring a part of the world into different wind belts at opposite times of the year.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

GREAT WINDS PART II

551.37 GBI English B/W 11 mts.

This film is concerned with the actual distribution of pressure and winds as they are known to exist on the surface of the earth.

GEOLOGY IN THE SERVICE OF MAN

551.4 FD Hindi B/W 17 mts.

A film on the role played by the Department of Geology in the development of the country.

WATER

551.4 Almanac English B/W 10 mts.

Water—the film shows is so common that we take it for granted but it plays as important a part as many vital chemicals, in all industrial processes.

OCEANOGRAPHY : SCIENCE OF THE SEAS

551.46 CALIFILM English B/W 11 mts.

Oceanographers use instruments to explore the ocean waters, the sea floor and the earth's interior beneath the floor. Sediments from the ocean floor provide clues to the past library of living things.

ASSIGNMENT OF GROUND WATER

551.480954 FD Hindi B/W 11 mts.

This film shows the exploration and exploitation of the underground water in the country.

MAKING OF THE RIVER

551.483 Coronet English B/W 12 mts.

Tracing the physical formation of river from its sources, waters in the

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

forest, the mountain and the glew, the film follows the river to its trimuphal termination at the sea.

NATURE'S PLAN

551.517 EBF English Colour 14 mts.

Portrays the principles and the importance of the natural water-cycle—the continuous moving of water from ocean to air, from air to earth and from earth back again to the sea.

CYCLONE AND PRECAUTION

551.55 FD Hindi B/W 19 mts.

The film shows cyclones and their hazards and how we should prepare ourselves in such situations. It shows the various techniques developed to predict cyclones, their intensity and direction etc. We cannot stop cyclones but can check their hazards by having prior information through weather-reports, radars, computers and transmitters.

CLOUDS

551.5724 CALIFILM English B/W 10 mts.

The clouds have many different shapes. These shapes change as clouds grow larger or dwindle away. Without clouds there would be no rain and without rain the land would be a desert. Clouds are important to man and other living things on the earth.

CONCERTS FOR CLOUDS

551.576 Porta English Colour 9 mts.

Uses accelarated action camera techniques to analyse the patterns of clouds development, movement and dispersion. Cloud motions are synchronized to music. Suitable for creative arts as well as science classes.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

FIGHTING THE DROUGHT

551.5773 FD Hindi B/W 11 mts.

We cannot stop drought but we can fight it out to minimise its hazards. How the effected people should be employed in constructing new wells to provide water and constructing new roads to transport food and water from nearby places.

DROUGHT IN MAHARASHTRA

551.5773 FD Hindi B/W 11 mts.

It depicts the drought tragedy that hit Maharashtra in 1973 and the steps taken to counteract its effects.

ONE HUNDRED AND TWENTY-FIVE YEARS OF SERVICE

551.7010954 FD Hindi B/W 14 mts.

The film brings to the screen the role played and the progress achieved by the Geological Survey of India, during the last 125 years.

TEACHING OF SCIENCE THROUGH ENVIRONMENT ROCKS AND SOILS

552.0607 DTA English B/W 19 mts.

The film 'Rocks and Soils' has been designed to focus the attention of the teachers and students in utilising the environment to the maximum advantage for proper understanding of the subject matter. It shows how the teacher can make the best use of environment by taking the children out on fieldtrips for on-the-spot study of various objects related with Rocks and Soils and making the study more purposeful.

FRED SMITH, MAN OF CONFUSION

572 CMC English B/W 7 mts.

Man—trying to find his identity through various angles.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

ITIHAS KI KHOJ

573.2 CFS Hindi Colour 25 mts.

The film gives the story of the evolution of man, based on pictorial exhibition inspired by Pandit Jawahar Lal Nehru's letters to his daughter Indira.

SAMAY KA CHAMATKAR

573.2 CFS Hindi/English Colour 22 mts.

This film shows through puppets the miracle of time, and traces man's evolution from the stone age till they became settlers.

KNOW YOUR BIOLOGY KIT [PART II (ZOOLOGY)

574 DTA English B/W 13.04 mts.

It explains how to conduct various experiments in Zoology with the help of the kit. The film starts with the study of various stuffed animals in a museum. It shows how living animals like guinea pig and rat, etc. are kept and maintained in research laboratories for various experiments. The method of catching various types of insects with the help of a collection net provided in the kit, has been explained. The method of dry preservation of insects for the use in the classroom has also been shown in detail.

STORY OF THE BIOLOGICAL SCIENCES—CURRICULUM STUDY, THE

574.071 CSE English B/W 24 mts.

The film describes the various steps taken by the Biological Sciences Curriculum Study Society of America to prepare the materials required for improvement in the study of biology at various levels.

KOSHIKA ADHAYAYAN KE UPKARAN AUR VIDHIYAN

574.1 DTA Hindi B/W 19.10. mts.

The film shows a study of different types of plants and animals in natural

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

environment and how the study was started in the early days with Robert Hook's microscope. From Hook's microscope the period is recounted to the most sophisticated microscope in use these days. The use of microtomy for study of plants and animals tissues and the various processes like the examination of cell through the compound microscope, staining of microtome sections, use of electron microscope, counting and separating of the living cell for study and use of spectrophotometre etc. has also been shown in the film.

KNOW YOUR BIOLOGY KIT (PART III)—HUMAN PHYSIOLOGY

574.1 DTA English B/W 18 mts.

The film shows the use of different items of the kit, developed by the Department of Education in Science and Mathematics, NCERT for the teaching of subjects on Human Physiology and how these are handled before the pupils in the classroom. It explains the different types of apparatus and properties required in out-door and in-door activities in the learning and understanding of the subject.

LIFE

574.1 FD Hindi Colour 16 mts.

This colour film depicts emergence of life on earth and also attempts to distinguish the living from the nonliving. The processes of Osmosis and Photosynthesis have been shown with a view to emphasising the complete dependence of animal life on the plants.

TOOLS AND TECHNIQUES OF CELL STUDY

574.1 DTA English B/W 19.10 mts.

The film shows sophisticated tools and techniques which are used for the study of cell. The film shows a study of different types of plants and animals in natural environment and how the study was started in the early days with the Robert Hook's microscope. From Hook's microscope the period is

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

recounted to the most sophisticated microscope in use these days. The use of microtomy for study of plants and animals tissues and the various processes like the examination of cell through the compound microscope, staining of microtome sections, use of electron microscope, counting and separating of the living cell for study and use of spectrophotometre etc. have also been shown in the film.

COMMUNITIES

574.5 FA English Colour 17 mts.

Communities are not what they sometimes appear. This is the approach used to reveal the structure and composition of a rainforest—the community described in this film From a seemingly innocuous mass of timber and leaves, layer upon layer of the forest is peeled back to display a myriad of populations living in conjunction with one another as the rain-forest community. The way community functions, the factors that cause change and the way all life is tied to a community structure are some of the broad concepts introduced within this film.

ECOSYSTEMS AND INTERACTIONS

574.5 FA English Colour 15 mts.

How do plants and animals obtain energy and what are the processes that nourish and support living organisms ? Unusual visual examples, including the mangrove-eel grass community are used to answer these questions. The film shows how energy moves through a food chain and how nutrient cycles functions. The film draws together many of the concepts of 'Populations' and 'Communities' and explains how the delicate web of life can be radically altered, particularly by the actions of Man.

NATURE'S HALF CARE

574.5 WD English Colour 23 mts.

The film gives an idea of the continuity of life in plants, animals and

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

insects. It gives a very nice nature's plan of providing for their existence and caring for all.

POPULATIONS

574.5 FA English Colour 13 mts.

Using a diverse range of visual examples, this film describes most of the principles that cause populations to look and behave as they so. Populations are seen as existing in a dynamic state of flux, controlled and influenced by a number of factors, with no population capable of living in isolation. The constant change of populations, why this happens and how plants and animals take steps to ensure their survival, are themes within this film.

MYSTERIES OF THE DEEP

574.92 WD English Colour 24 mts.

A film exploration of the lower depths of the sea which reveals truths even more fantastic than legend—the amazing evolution of life and underwater struggle for survival.

SECRETS OF THE UNDER WATER—WORLD

574.92 WD English Colour 16 mts.

A study of the intriguing life beneath the water's surface where lives a whole world of bizzarre creatures such as the Anglee fish, Decorator Crab and Archer Fish.

'M' FOR MONKEY

575 TFP English B/W 6 mts.

Monkey, the ancestor of man is described through line drawings. How he responds to certain phenomena like man.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

HEREDITY IN ANIMALS

575.12 UWF English B/W 10 mts.

Explains Mendel's law of heredity, and how inherited characteristics are handed on from generation to generation also shows examples of inheritance of one or more physical characteristics, complete and incomplete dominance and recombination for new types.

HEREDITY AND FAMILY ENVIRONMENTS

575.13 McGraw English B/W 9 mts.

In a High school psychology class the instructor, using camera techniques, illustrates the roles of heredity and environment and how they mess in actual living by picturing the development of Jennifer Kimball, one of the class member.

WATER IN BIOLOGY

577 Unilever English Colour 21 mts.

Every living thing, plant or animal, in the sea or on land depends on water for its life and processes. Water carries nutrients to living organisms and waste products from them, its passage to and from the cells being governed by the processes of osmosis and diffusion. Water is used in the manufacture of organic tissue, and in photosynthesis. Water is the necessary medium for both growth and decay and is thus the basic essential for the cycle of life. This film is of special interest to biology students.

WORLD OF LITTLE THINGS

578.1 MOODY English B/W 15 mts.

World of living things. This film tells about the scope of microscope. The new world of tiny particles and living objects are visible to man, which opened new branches of study. All these studies and increase of knowledge of micro-organisms are possible due to the invention of microscope.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

ELECTRON MICROSCOPY (AN INTRODUCTION)

578.15 AEI English Colour 22 mts.

The principles of electron microscopy, and how the sponsor's modern EM 6 instrument is constructed and operated. It also shows the instrution and operation of an electron microscope, and use with image intensifier.

PRIDE OF NATURE

581 FD English Colour 20 mts.

Shows the different types of plants and trees of Eastern India.

KNOW YOUR BIOLOGY (PART I) BOTANY

581.07 DTA English B/W 11 mts.

The film explains the handling of the biology kit on Botany, developed by the Department of Education in Science and Mathematics of the NCERT and how to use the different items contained in the kit for effective teaching of the subject by performing a variety of experiments and demonstrating them in the class.

PLANT LIFE AT WORK

581.1 MOODY English Colour 10 mts.

Photo-micrography and time-laps photography are used in showing how plants exhibit life functions that characterised all living things, using energy for movement, growth, manufacture of food and reproduction. The work accomplished by growing plants is illustrated in detail.

ABOUT FLOWERS

582.13 NFBC English Colour 6 mts.

It is a nature lesson taught in a field of flowers in a way to interest even the youngest audience designed for elementary science studies. The film answers questions that children ask.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

BACTERIA—FRIEND AND FOE

589.9 EBF English B/W 28 mts.

Describes examples of bacteria and tells where they may be found. Presents some of the historical discoveries by Pasteur, Koch, and others. Depicts four main types of bacteria and explains the conditions which are favourable to bacterial life.

UNDERSTANDING ANIMALS PART I & II

591 DTA English B/W 23.50 mts.

The film is produced to help the teacher and the students to a better understanding of animals and birds and also to understand the ecological link between man and animal. The film shows large varieties of animals around us as well as in a sanctuary and a zoo. A teacher is shown explaining to the children the working of various organs of animals in relation to their size, structure, habit and habitat. The film shows the preparation of food in a large scale for the animals in the zoo in comparison with similar situations in human life.

'C' FOR CHICKEN

591.3 TFP English B/W 6 mts.

The film aims at educating the junior school children through line drawings all about chicken.

NONSTEADY SUPERCRITICAL FLOW THROUGH AN ORIFICE

591.42 Silent B/W 2 mts.

Shows the shock tube with orifice mounted at one end. Orifice initially closed by a diaphragm. At first, supercritical flow through orifice is established when needle visible in picture punctures diaphragm, then the incident shock wave establishes a new supercritical flow. Finally, a subscritical flow with strong jet mixing is visible.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

ZOO BABIES

591.5 Coronet English B/W 10 mts.

In this presentation of zoo animals and their offsprings, the following questions are answered. Do all baby animals look like their parents ? How do they get their food ? How they are protected ? Children's attention is directed to the physical characteristics and habits of baby monkeys, guns kudus, lions, peacocks, alligators and bears and the relationship of babies to their parents.

SMALL BODY OF STILL WATER, A

591.9 FA English Colour 16.30 mts.

A pond is not just 'a small body of still water' but a whole living community as this film on life in fresh-water lakes shows. This film complements A PLACE OF COMPROMISE, a film which looks at major forms of life to be found on the Australian seashore. Both films have been made as teaching aids for schools to assist students to better understand the Australian marine environment.

LIFE IN THE INDIAN DESERT

591.90954 FD Hindi Colour 18 mts.

The film shows the wild life in the Indian desert.

TROPICAL WILDERNESS

591.90954 FD Hindi Colour 21 mts.

Starting with the panoramic shots of the monsoon which is the great life-giver for the tropical forest, the film gives glimpses of some of the birds, animals, reptiles and amphibians that live there. It shows the Indian Weaver Bird in its courting, plumage, building its fantastic nest; a saw-scabed viper—one of the deadliest snakes sipping rain drops from Leaves; a water snake catching and eating a frog and a Leopard on the hunt—making and eating a kill.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

SECRETS OF THE ANT AND INSECT WORLD

595.7 WD English Colour 12 mts.

Life in an ant colony. Habits and characteristics of the honey-makers, the gardener ants; the hunters; and the harvesters, fight for survival between red and black ants.

'B' FOR BUTTERFLY

595.78 Lawrence English B/W 5 mts.

With the help of line-drawings, a butterfly is described in its developmental stages and other characteristics.

EK THI TITLY

595.789 CFS Hindi Colour 30 mts.

The study of life cycle of butterfly through the experience of a little boy who used to catch them for fun.

LANGUAGE OF BEE

595.799 MOODY English Colour 15 mts.

The language of the honey bee is demonstrated and explained. The structure of the compound eye is examined including the special arrangement which enables a bee to fly at a given angle to the Sun.

SECRETS OF THE WORLD

595.799 WD English Colour 13 mts.

Feeding, reproduction, and unusual habits of bees, beginning of a new colony and battle of the queens.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

AMONG FISH

597 NFBC English Colour 11 mts.

It is a demonstration for junior science classes of what fish are, how they live, breathe, swim and it is remarkable how they float up or down by manipulating their air bladder.

MYSTERIES OF THE DEEP

597 WD English Colour 24 mts.

Marine life in deep water, mantaray, anemones, feather dusters, worms, sand crabs, shrimp, pipefish, giant slug, dolphins, sea horse, squirrel fish, and octopus, all these things have been explained in this film.

LOCOMOTION OF SNAKES

598.12 McGraw English B/W 10 mts.

Various species of snakes illustrate four basic methods of locomotion, rectilinear or caterpillar motion, lateral undulatory of serpentine motion, the side-widening motion and the 'hitch-and-hike' or concertina method.

BIRDS, BABOONS AND OTHER ANIMALS—THEIR STRUGGLE FOR SURVIVAL

598.2 WD English Colour 19 mts.

In the jungles and plains which make up the home of the lion also lives a vertiable menagerie of strange and colourful creatures which are rarely observed in their wild state. The telephoto lens brings into view an incredible host of intermingled wild life.

BIRDS OF OUR STORY BOOK

598.2 Coronet English B/W 12 mts.

The robin cardinal, crow, owl, blue jay sparrow, redheaded woodpackers,

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

wren and sea gull-birds which children encounter most frequently in their stories and text are shown both as they appear in book illustrations and as they are in their natural settings.

BIRDS OF THE DOORYARD

598.2 Coronet English B/W 11 mts.

Shows how the Robin, yellow warbler, eastern phoebe, yellow-shafted flicker, cardinal, trees swallow, house wren and purple martin nest, feed and care for their youngs. Entirely new scenes and sound, with authentic bird calls illustrate the characteristics of each bird and show how these familiar birds may be attracted to our homes and gardens.

BIRDS OF THE COUNTRYSIDE

598.2 Coronet English B/W 11 mts.

Presenting the indigo bunting, eastern kingbird, marsh hawk, sparrow hawk nighthawk, mourning dove, western meadowlark, and killdeer in their natural surroundings, this film shows how these birds nest, feed, and care for their youngs. This third edition uses entirely new scenes and sound to illustrate the characteristics of each bird, including its authentic call, and to emphasie its value to man.

NATURE SYMPHONY

598.207054 FD Hindi/Music B/W 10.20 mts.

The film is woven around the daily activities of some Indian birds like bee-catcher, weaver, owl, cooper smith etc. Busy with their routine of life, they watch one another as some build nest, others feed their youngs. The film ends with the roar of clouds heralding the rainy season, thus provoking a peacock to start dancing.

WINGS OF FIRE

598.34 FD Hindi Colour 14 mts.

This colour-shot film depicts the habits and the way of life of the migratory

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

bird, the Flamingoe. The film is shot in the Rann of Kutch where the flamingoes gather in countless number for seasonal breeding.

FRIENDS OF THE JUNGLE

599 Dawlat Hindi Colour 10 mts.

The film gives the description of some of the animals and their inhabitation in the jungle.

KNOW THE ANIMALS

599 Dawlat English B/W 11 mts.

The film gives an idea of the life and habits etc. of some of the wild animals in the jungle.

RARE ONES

599.05548 FD Hindi B/W 21 mts.

The film depicts the wild life of some of the little known animals found in primitive wilderness of the Southern Regions of the Himalayas and forests of Tamil Nadu and Andhra Pradesh.

PLATYPUS ORNITHORHYNCHUS ANATINUS

599.1 FA English Colour 22 mts.

This is a study version of the subject presented in THE AMAZING PLATYPUS. It contains a comprehensive and scientific account of this unique Australian monotreme which is of as much interest to the non-specialist as it is to the student.

KANGAROOS

599.2 FA English Colour 13 mts.

Part one begins with the evolution of the Kangaroo, tracing its development

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

into over fifty species, from tree-dwellers to the better known 'Big-Red'. The feeding habits of various species are examined and their mating habits, birth and development in the pouch are studied in some detail. Beautiful photography captures the graceful movement of the Kangaroo in its natural habitat.

ELEPHANTS AND HIPPOS IN AFRICA

599.61 WD English Colour 17 mts.

Living in herds, these ponderous animals present a fascinating parade as they forge, fight and play in the seldom seen routine of daily existence. Cameras were taken underwater for a study of the unlikely swimming grace of the Hippos.

629.3430954 FD Hindi B/W 10 mts.

The fiilm highlghts the activities of the Indian Scientific Satellite Project in

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

Bangalore in relation to the designing, fabricating and landing of the first Indian Scientific Satellite ARYABHATTA.

NEW WAVE FARMERS

630 FD Hindi B/W 19 mts.

This is a film about a class of new entrants in the field of agriculture namely the urban gentry, thus bringing about a synthesis between the urban and the rural.

PRADHAN MANTRI AUR KISAN

630.11 FD Hindi B/W 13 mts.

The film brings to the screen message of Prime Minister, Smt. Indira Gandhi to the farmers of India in her own voice.

AGRICULTURAL INDIA AT ASIA '72

630.0954 FD Hindi B/W 10 mts.

It is a film on the agriculture industry depicted at Asia 1972 exhibition. It shows new methods of farming and other facilities provided to the farmers for increasing production.

VILLAGE ECONOMY

630.11 FA English Colour 15 mts.

The film follows the activities of a middle class landowner and developments in the village rice industry.

CRUCIAL YEAR, THE

630.1154 FD

The film depicts a farmer's life in the village of Haryana and how they are trying to get more crops by modern methods of cultivation and use of inputs.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

LOOK AT RURAL INDIA, A

630.203 FD Hindi B/W 17 mts.

The film highlights the government's plans in rural area of the country with the aim of providing a fuller life to growing rural population so that the villages come into their own and develop the new relationship with the urban areas. This film was specially produced for HABITAT, U.N. Conference on Human Settlements in Vancouver, Canada, 1976.

ROAD AHEAD

630.7 TANGANYIKA English Colour 20.5 mts.

Film shows how the villagers through self-help and cooperation built roads, community centres, schools, etc.

YOUNG FARMERS CLUB

630.7 ICAR English/Hindi B/W 22 mts.

Demonstrates the need and procedure to form youth clubs in villages.

AGRICULTURAL UNIVERSITY

630.7110954 FD Hindi B/W 16 mts.

Some of the important agricultural universities of the country and their efforts to improve Indian agriculture are highlighted in the film.

GRAM SEVAK

630.715 AFA English/Hindi B/W 35.12 mts.

Detailed exposition of duties of a village worker showing the most effective methods of teaching new and improved techniques to villagers, including communication methods.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

GRAM SEVIKA

630.715 AFA English/Hindi B/W 35.9 mts.

Portrays training of Gram Sevikas in village work and home science techniques, stressing the need for village women to join this important extension service.

TRAINING OF MEN

630.715 IFI English/Hindi/Kanara B/W 10 mts.

Story of the extension workers' training programme in Etawah District. Training of men follows the principle of learning by doing actual field work in the villages.

STRANGER

630.715 Ford Foundation English Colour 21 mts.

Describes the efforts of an extension programme to improve conditions of life in the villages of India. Portrays the experience of an extension worker in training and at work in the villages.

TOWARDS TOMORROW

630.715 Cascade English/Hindi B/W 17 mts.

That food is India's chief problem and that only by becoming self-sufficient will she have the wealth and strength to maintain herself as a free nation is the subject of this film. Shows how recruits for village development work learn simple, practical lessons about seeds, fertilizers, irrigation, vaccination, water supply, etc., in order that they may help the villagers in the Community Development Programme.

ENGINEER KISAN

630.717 FD Hindi B/W 12 mts.

The film is designed to motivate young unemployed engineers to become entrepreneurs of various Agro-service schemes.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

GRADUATE KISAN

630.717 FD Hindi B/W 14.35 mts.

The film shows how the students of Agricultural Universities get training in practical farming as part of their degree course.

PANCHAYAT RAJ BHARPUR ANAJ

630.72 FD Hindi B/W 22 mts.

This film shows the role of Panchayats in increasing agricultural production.

HELP GENERATES SELF HELP

631 FD Hindi B/W 11 mts.

The film shows how the help received from various countries under 'freedom from hunger' campaign has generated self help among our farmers.

WHATS YOUR OPINION—No. 2 (LEAVING IT TO EXPERTS)

631 McGraw English B/W 10 mts.

Two farmers in a country-store argue about an individual's responsibility to keep informed of events beyond his immediate concern. One of them has rejected an invitation to join an international affairs study group. He feels that a farmer has enough to do and that the running of the world can best be left to the experts. The audience is invited to carry the discussion further on the subject.

WINDS OF CHANGE

631.0954 FD Hindi B/W 10 mts.

This film depicts agricultural transformation in Turkhanlia Block of Champaran district. This project is an ideal example of a step taken towards green revolution by India in collaboration with Norway.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

CHAINS OF BONDAGE

631.2 FD Hindi B/W 18 mts.

The film deals with the miserable plight and role of farmers in India. It shows glimpses of how in the past they were exploited by money lenders and zamindars. It also shows now under '20 points Economic Programme' the new laws has rescued the Indian farmers from the clutches of middle men and money lenders by providing ready loans, fertilisers, good seeds, better implements, marketing facilities and forming an essential link in chain of all organisations that are together re-shaping the fate of farmers.

FARMER'S FRIEND—STATE FARM

631.2 FD Hindi B/W 14 mts.

The film shows activities of State Farm and its relationship with the development of local farmers.

FOR MY FATHER FOR MY SON

631.2 CMC Hindi/English/Kanara B/W 20 mts.

Shows how a farmer prospered by following his Gramsevak's recommendations on improved farming practices.

ONE DAY ON THE FARM

631.2 Coronet English B/W 16 mts.

Describes the events of a full day on a farm—shows the farmer and his family performing such tasks as milking, collecting eggs, feeding cows, and harvesting corn.

TIME IS MONEY

631.2 Ama English Colour 10 mts.

To save labour, speed up harvesting, thrashing, seed cleaning and winnowing to release the cultivator's bullocks as soon as possible for other jobs are demonstrated in this film.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

TRIUMPH IN WILDERNESS

631.2 FIP Hindi B/W 19 mts.

Story of the Tarai Project in Uttar Pradesh where, through the cooperation of the people, thousands of acres of malaria infested land were reclaimed in productivity.

CARE OF THE SOIL

631.3 FD Hindi B/W 12 mts.

It is a film on conservation and care of soil. It tells us how to preserve the fertility of the soil by the use of the fertilizers after every harvest and about the use of green manure and sil cakes to improve soil fertility.

FIRST FURROW

631.3 ICAR English/Hindi B/W 13.47 mts.

How the help of improved farm implements and cooperation developed a backward village. Demonstration of various farm implements and a comparison of the old and new.

HUNGER FIGHTER

631.3 Ama English/Hindi/Marathi/Tamil B/W 15.45 mts.

Deals with the importance of care and maintenance of tractors; shows class-room scenes in the Central Tractor Organisation School at the Indian Agricultural Research Institute.

ROW CULTIVATOR

631.3 Ama Hindi B/W 9 mts.

Discusses the advantages of the row cultivator, how to use it and how it can be adapted to other modern farm implements.

MOULDBOARD PLOUGH, THE

631.33 Ama English/Hindi B/W 9 mts

Tells in details about the mouldboard plough, how to use it, and its advantages over the ordinary plough.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

MOULDBOARD PLOUGH, HITCHING AND USING

631.35 CMC English/Hindi B/W 21.14 mts.

Explains by field demonstrations the theory and practice of a correct hitch for the most efficient use of the mouldboard plough.

INDIA FIGHTS KANS

631.372 UNO English B/W 20 mts.

Kans grass is a choking growth spreading across the plateau of Central India. It prevents cultivation and slowly takes over the fields. To kill it and restore the land, it is necessary to plough deeply, using heavy tractors and modern ploughs. The traditional wooden ploughs did not reach the roots. The farmers were fighting a losing battle. By asking the World Bank to help, some 300 tractors were purchased with funds loaned for the purpose. The Indian Government trained teams of men to handle the machines and now the tractors are winning back the farmers' fields.

BHOO SANRAKSHAN

631.4 FD Hindi B/W 17 mts.

It is an instructional film which describes how the soil is lost due to erosion, sands-storms, wild grazing by animals, loss of vegetation etc. The film illustrates the methods and manner in which the erosion of the soil could be checked and its fertility is enhanced.

FRIEND OF THE FARMER

631.4 FD Hindi B/W 10.27mts.

The film shows the role played by the Meteorological Department in the day to day life of Indian Farmer. It also brings to the screen how the Department proposes to help the farmers in future.

EROSION—LEVELLING THE LAND

631.45 EBF English Colour 13.37 mts.

Shows graphically how land shifts to fill low spots on the earth's crust and

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

is finally carried on to the sea. Various causes of land shift are explained to delineate the idea of land erosion.

IMPROVED SEEDS

631.5 Ama English/Hindi B/W 11.14 mts.

Shows importance of improved seeds. Describes the importance of careful handling during growth, harvesting and thrashing for a bountiful crop.

PRACTICAL SEED DRILLS

631.521 Ama English/Hindi B/W 9 mts.

Describes various types of seed drills for the benefit of average small Indian cultivator. Some drills shown are very simple to use and easy to make.

EVERY GRAIN COUNTS

631.53 FD Hindi B/W 11 mts.

The film describes the various ways and methods applied to have high yield to improve our food situation.

SAVE YOUR GRAIN

631.53 FD Hindi B/W 11 mts.

The film is on how proper storage of foodgrains in rural areas can save large amount of food stuffs.

MULTIPLE CROPPING IN INDIA

631.530954 FD Hindi B/W 17 mts.

Introduction of short duration and intensive varieties of crops suitable for all seasons has made it possible to raise even four crops in a year. The film brings out the possibilities of multiple cropping in India.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

YOUNG ARTISANS

631.58 FD Hindi B/W 10.44 mts.

The film depicts the facilities available today for training rural artisans into competent farm technicians-cum-mechanics.

CONTOUR IRRIGATION

631.62 CMC English/Hindi B/W 16.37 mts.

Shows step by step process of preparing land to receive irrigation according to its topography ; also explains the location and construction of irrigation and drainage ditches to keep water from washing away the soil or going to waste.

CONSERVATIVE IRRIGATION WITH B. S.

631.7 ICAR English/Hindi B/W 23.33 mts.

Shows how to grow more wheat at less cost by making more economical use of irrigation water. Border strips and contour irrigation ditches are constructed with bullock drawn earth-moving implements made in the village.

IRRIGATION—THE BETTER WAY

631.7 FD Hindi B/W 21 mts.

The film shows various improved irrigation practices followed by the Indian farmers.

NOW IS THE TIME

631.7 FD Hindi B/W 8 mts.

The film is an address to the farmers in the areas with assured irrigation to produce more during Rabi season.

PLANNING FOR PLENTY

631.7 USIS English B/W 13.40 mts.

How tubewells are helping India in 'Grow More Food' campaign and how

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

farmers using them no longer have to depend on rain for irrigation. Scenes show formation of water from the snow-covered Himalayan peaks. Animated diagrams show the working of tubewells.

SOIL SURVEY FOR PROPER SOIL AND WATER MANAGEMENT

631.7 USDA English Colour 17 mts.

This film depicts the procedures for measuring, proportioning, conveying irrigation water and the value and devices of soil tests.

BALANCED FERTILIZER

631.8 FD Hindi/English B/W 12 mts.

The film lays stress on the necessity of using the three fertilizers, i.e.Nitrogen, Phosphate and Potash in right proportions for getting better yields.

FERTILIZER MIXER

631.8 FD Hindi B/W 10 mts.

The three fertilizers, Nitrogen, Potash and Phosphate are now avaliable in a mixture form in various proportions to suit the general requirements of our soil, thus saving the time and labour of the farmer.

FERTILIZER THROUGH LEAVES

631.8 FD Hindi B/W 9 mts.

The film depicts how with the help of sprayers, fertilizers can be applied directly on the leaves of wheat crop to get better yield.

PURE FERTILIZER

631.8 FD Hindi B/W 11 mts.

The film shows the various steps taken by Government and fertilizer manufacturers to keep up purity of the fertilizers so that the farmers can use them with confidence.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

KEY VILLAGE PLAN FOR CATTLE DEVELOPMENT

631.807 Sethna English B/W 18 mts.

Operation of an actual key village breeding centre; how it helps the farmer develop a better breed of cattle on his farm.

LIFE FOR THE LAND

631.807 Prabhat English/Hindi/Tamil B/W 14 mts.

The film is designed to show the importance of fertilizers and what they mean to India in her campaign to grow enough food. Scenes include a visit to a fertilizer plant and show processes of manufacture of bagging.

PROMISE OF PROSPERITY

631.81954 FD Hindi B/W 10 mts.

The film depicts the growth of the Fertilizer Corporation of India and shows how farmers use fertilisers in various parts of the country and have achieved the aim of Green Revolution.

LIFE OF THE SOIL

631.82 Ama English B/W 19 mts.

Demonstrates how soil has been used, why its life has been exhausted, and how it can be rejuvenated.

PHOSPHATE FOR PLENTY

631.85 FD Hindi B/W 13 mts.

Deficiency of Phosphatic fertilisers in the soil often results in a poor crop. The film emphasises the importance of the use of phosphatic fertilizers by the farmers for getting a bumper harvest.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

HOW TO FLAY, CURE AND UTILISE CARCASS

632.6 TCM English B/W 15.15 mts.

How to utilize all the by-products of dead animals, better tanning, use of bones, use of hoofs; from the villagers' standpoint.

RATS

632.693233 FD Hindi B/W 19 mts.

A film on rats, the enemy of man, and how their menace can be controlled.

TERMITE COLONY

632.736 EFVA English Colour 10 mts.

A study of the life cycle and social organisation of the termite. Animated drawings illustrate its structure and anatomy and the organisation of the colony.

HOW TO CONTROL PESTS

632.9 Ama Hindi/Kanara/Tamil/Oriya/Gujarati B/W 20.37 mts.

Shows what damage grain storage pests can do to our stored grain, and what practical steps can be taken against the pests.

PESTS OF COCONUT PALM

632.9 Ama English/Tamil B/W 10.24 mts.

Shows the pests that attack coconut palms and teaches cultivators how to control them.

PEST CONTROL OPERATOR

632.94 MTPS English Colour 15 mts.

Shows the pests that attack the farms and describes how to control them. Both power and mechanical means of destruction are demonstrated.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

SAFE USE OF PESTICIDES

632.95 AFA English/Hindi/Kanara/Tamil B/W 15.40 mts.

Shows various methods of fighting insects and pests which ruin the crop. Explains use of insecticides, stresses precaution and care in their use.

HOW TO GROW MORE PADDY

633 Ama English/Hindi B/W 22.20 mts.

Demonstrates in detail the Japanese method of rice cultivation which makes possible the growth of 3,000 pounds of rice in a single acre of land as against 800 pounds by older methods. The film centres around Kora Kendra, the experimental farm on the outskirts of Bombay.

FOOD FRONT

633.1 FD Hindi B/W 20 mts.

The film depicts India's efforts to produce more food for its people.

MORE WHEAT BETTER WHEAT

633.1 AFA English/Hindi/Panjabi B/W 9 mts.

Shows that how the use of proper fertilizers can improve wheat yields.

NO GRAIN DOWN THE DRAIN

633.1 FD Hindi B/W 11 mts.

The film highlights the various measures taken by the Government to minimise post-harvest losses in food grains losses due to rodents, poor storage methods of food grain etc.

GROWING MAIZE

633.17 ICAR English/Hindi B/W 22 mts.

Shows advantages of planting hybrid maize, correct fertilising practices, proper irrigation methods.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

RICE BLAST

633.18 AFA Hindi/English/Tamil/Kanara B/W 10 mts.

Shows what should be done when rice blast starts infecting a crop of paddy and how the disease can be identified.

TRUE REPORT

633.180954142 FD Hindi B/W 5 mts.

The short documentary film shows in a very simple manner the harvest of paddy crop in 1969in the State of West Bengal where it was a record harvest.

SOYA BEAN

633.34 FD Hindi B/W 7 mts.

This film is on the importance of growing Soyabean crop.

SUN FLOWER FOR OIL

633.39 FD Hindi B/W 10.17 mts.

Film depicts the scientific method of growing sunflower for the demand of oil.

HOW TO GROW MORE SUGARCANE

633.61 TCM Hindi Colour 24 mts.

Shows proved and tested ways the sugarcane grower can use to double his income by following improved methods and using fertilisers.

TEA GROWING IN ASSAM

633.72 GBI English B/W 11 mts.

The film shows the tea producing areas of the world. The work is shown on a typical estate in Assam.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

ROOTS OF PROSPERITY

634 FD Hindi B/W 19.35 mts.

The film shows the various uses of 'Tapioca'—a root tuber rich in carbohydrates which is grown in Kerala State. Among the many products derived from tapioca are tarch, glucose, dextrose and dextrine.

TREE IS A LIVING THING

634 NFBC Hindi Colour 11 mts.

The film presents a study of tree and its growth.

GROWING ARECANUTS

634.5 ICAR English/Tamil B/W 33 mts.

The importance of Indian arecanut production; detailed step by step demonstration of improved methods of cultivation; plan diseases and pest control; harvesting and marketing both hard and soft nuts.

DISEASES OF COCONUTPALM

634.61 CC English B/W 9.15 mts.

Describes the diseases of coconuts and shows how to prevent and cure them.

GARDEN FOR TOMORROW

634.61 CMC English B/W 19 mts.

Explains proper cultivation and care of a coconut plantation to obtain high yields. Tells the story of a coconut cultivator who was discourged until he spoke to the Extension Officer.

GROWING COCONUT

634.61 ICAR Malayalam B/W 20 mts.

Shows step by step how to grow more coconuts on the same acreage; how to protect against plant diseases.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

TREES IN DELHI

634.92 FD Hindi B/W 7 mts.

This is no the importance of the trees and tree planting. In brief it shows the necessity of trees in an urban area like Delhi for green view and better health conditions.

LIFE IN THE FOREST

634.98 EBF English B/W 11 mts.

Shows how forests, like cities, are constantly changing and are densely populated. The probing telephoto lens reveals how even the trunk of a dead tree teems with life. What is food for one denizen may be a threat to another, but all depend on plant life for food and shelter.

MAN AND THE FOREST

634.98 FD Hindi B/W 20 mts.

The film shows the various useful products we get from the forest and how Khadi and Village Industries Commission trains tribal people to make fuller use of the forest wealth.

ROSES OF INDIA

635.93330954 FD Hindi Colour 15 mts.

The rose that had once bloomed in ancient India was revived again by the Moghul Emperors. India has a profusion of roses. The film narrates the story of dream-blossoms that brings a fairy touch to our lives.

DELIGHTFUL NATURE

635.9541 F.C. Laboratory English Colour 22 mts.

This film unfolds the splendour and scenic beauty of flora of North India's region of Arunachal and Assam—a region of hills and forests known for its floral beauty and richness, enjoys a great wealth of natural resources. It also

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

brings to the screen its fascinating gardens, flowers, trees, lakes, with hard working and colourful people with rich culture.

SHOW THAT SHOWS THE WAY

636 FD Hindi B/W 10 mts.

The film tries to remind us as to how much we are dependent on animals and birds through cattle and poultry shows. It tends to encourage us to adopt new breeds of animals and birds for greater yields.

OUTBREAK

636.009 USDA English B/W 29.27 mts.

Documents the history of foot-and-mouth disease in the U.S. and shows what happened during the 1929 outbreak in California, how the disease was stopped by the combined efforts of local, state and federal agencies utilizing every possible eradication method.

A Mexican sequence brings the conflict with the disease upto-date and tells what the Mexican and the United States Governments are doing at present to cooperatively fight and contain the disease.

FUN ON A FARM

636.08 Tembert English B/W 12 mts.

Different pets and animals reared by the farmer in his farm are depicted. It is a fun to watch chickens, goats, cows, calves and kitten all at one place.

FEDERAL VETERINARY IN AGRICULTURE

636.089 USDA English Colour 13.49 mts.

Pictorial story of the USDA veterinarian; his past successful animal-disease-eradication campaigns; his present duties in maintaining the health of America's livestock and poultry; and his future challenges in the continuing advance of veterinary medicine. Describes his work at our borders, seaports, and airports and his research activities at especially constructed laboratories.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

HOG CHOLERA AND AFRICAN SWISS FEVER

636.089 USDA English Colour 23.10 mts.

Shows the autopsy of several swines affected with hog cholera and some of the characteristic lesions and pathologic changes of the organs and tissues associated with hog cholera. Compares similarities and differences in the pathology of hog cholera and of african swine fever often called war-hog disease.

PLUM ISLAND ANIMAL DISEASE LABORATORY

636.089 USDA English Colour 24 mts.

Presents the Nation's first laboratory for the study of foot-and-mouth disease and the research centre to determine ways of eradicating foreign contagious animal diseases. Shows safety measures, isolation safeguards and facilities provided to conduct experiments designed to guard America's livestock.

RINDER PEST

636.089 USDA English Colour 19 mts.

A technical picture, designed for veterinarian training, describing the history and geographical distribution of rinderpest in cattle, sheep, and goats. Shows the lesions and pathological changes of organs and tissues affected, and outlines measures used to prevent its introduction into this country.

TRACK BACK

636.08907 USDA English B/W 13.25 mts.

Outlines the basic steps involved in the use of a uniform back-tagging system as a means of indentifying and tracing to the herds' origin, brucellosis-infected cattle detected through blood testing on the way to or at slaughter. Shows advantages of the system to beef producers, including possible use of tracing procedures to detect and eliminate other livestock diseases.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

THREAT OF THE CATTLE FEVER TICK

636.0895 USDA English Colour 14.50 mts.

Presents the danger of the cattle fever tick to American cattle, a brief history of the 30-year campaign waged to eradicate tick fever in cattles in the South, and the significance of precautions taken to see that the tick does not gain another foothold in the U.S.A.

STAMP OUT HOG CHOLERA

636.089514 McGraw English Colour 21.42 mts.

Pictures the story of two hog breeders, particularly the one breeder that tried to gamble instead of following the laid out procedures for buying stock protected against the outbreak of the disease. The film graphically shows the symptoms, explains how the virus acts and where does it affect an animal. It shows how the disease can be held back by following the nine point federal programme for the prevention of hog cholera in the U.S.A.

AFRICAN HORSE SICKNESS

636.1 USDD English Colour 28 mts.

Explains that African horse sickness killed an estimated 300,000 equines in two summers in the middle East and Asia, pointing out that the disease spread from Africa through the mideastern countries to india. Presents a photographic record of the progress of the disease from infection to death. Describes the development, manufacture, and administration of preventive vaccines.

MARKET CATTLE TESTING FOR BRUCELLOSIS

636.2 USDA English B/W 10 mts.

Describes the market cattle testing programme in language of the cattle-man, pointing out that MCT is the useful method for initially certifying and re-certifying modified certified brucellosis areas and that the programme makes on-the-ranch testing unnecessary in 95% of the herds of cattle.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

GOLDEN HERITAGE

636.208 DBP English B/W 17 mts.

Shows the selection and breeding of cattles, including 'back-breeding experiments to recreates' the ancient Aurochs, forerunners of modern dairy cattle s. Features the development of modern Guernseys and the methods of production, processing and distribution of milk.

BLUE TONGUE

636.3 USDA English Colour 9 mts.

Describes the history and geographical distribution of blue tongue, catarrhal fever of sheep, symptoms, lesions, and pathology characteristic of the disease; and means of prevention and control.

MORE PROFIT FROM SHEEP

636.308 ICAR Hindi B/W 20.14 mts.

How a farmer can improve his herd of sheep with the help of government research stations and sheep breeding centre; the advantages of better sheep; the quality of better sheep and how they differ.

ABOUT PIGS

636.4 FD Hindi B/W 11 mts.

The film shows the development of piggeries and their maintenance in India. The preparation of pork and processing is also shown.

MAGIC OF THE EGG

636.5 ICAR English/Hindi B/W 21.20 mts.

Advantages and accepted techniques of raising poultry and eggs as a part-time job or a small-scale industry.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

POULTRY FOR PROFIT

636.5 FD Hindi B/W 10.43 mts.

As the demand for poultry products and eggs is growing day by day it can become a profitable occupation if one takes to poultry farming. Intensive Poultry Production Project is extending all possible help to intending farmers.

POULTRY STORY

636.5 CMC Hindi/Gujarati/Kanara/Tamil B/W 22 mts.

Shows how to develop a medium-scale poultry industry through various examples selected from among the members of a successful poultry farmers' cooperative society at Gurdaspur.

RESPIRATORY DISEASES OF POULTRY

636.5 FD English Colour 19 mts.

This film brings out the causes of respiratory diseases of poultry and suggests preventive methods.

VICIOUS CIRCLE

636.5 USDA English Colour 21.27 mts.

Discusses, through a dramatised story of a young farmer, the avian type of tuberclosis and its destructiveness among chickens and hogs. Indicates the difficulty of detecting the disease in poultry flocks, and recommends prevention and control measures including separation of poultry and swine.

REARING CHICKS

636.508 FD Hindi Colour 14 mts.

It is a film for educating the poultry farmers in scientific methods of chick-rearing.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

KUTTE KI KAHANI (Feature film)

636.74 CFS Hindi B/W 70 mts.

The film based on a story by late Munshi Prem Chand, has the main character of the film, the dog, called Moti. The dog is brought up and trained by the children of the village Pandit who refuses to accept the dog and calls him 'dirty animal'. But Moti's bravery, intelligence and faithfulness revealed through a series of touching events, converts the mind of the Pandit.

VESICULAR EXANTHEMA

636.8895 USDA English Colour 18 mts.

The story of the outbreak of vesicular exanthema in 1952, its rapid spread, and measures taken to control it. Shows disease symptoms; depicts differential diagnostic field tests; and reviews federal, state and industry cooperation in eradication efforts.

ELEPHANT BEFRIENDED

636.961 CHALIHA English B/W 11 mts.

Portrays elephants in the forests of India, from their first day in the jungle, through many weeks of training to the day they join a working force of elephants in a teakwood lumber camp. It also shows the people who train these elephants.

TO CATCH AN ELEPHANT

636.961 FD Hindi Colour 13 mts.

KUCHIPUDI DANCE—PART I

793.31 FD Hindi Colour 22 mts.

This traditional style of dance-drama is named after the village of its birth, in Andhra Pradesh. Devotion is the key note of this art form. Two luminaries—both Ascetic—Sidhendra Yogi and Teertha Narayana Yatti, are generally acredited for originating this dance form, by bringing about a unique synthesis of music, dance and drama for the specific purpose of expounding the philosophic truths of Epics and Puranas. The technique of 'Kuchipudi', incorporates all the three fundamental aspects of classical Indian dancing, namely 'NRITTA', 'NRITYA' and 'NATYA'. Various roles in this style used to be enacted by men alone, while today there are several female exponents as well. The first part of the film, briefly traces the original history and tradition of this art form. A well known, episode from the ancient dance-drama 'BHAKTA PRAHLADA' then follows vividly portrayed.
